MEETING SCOPE

The **3rd International Workshop on Mutant P53**, held at IARC in Lyon, will focus on "The origin and consequences of *TP53* mutations". Understanding the biological role of mutant p53 and its clinical impact requires the development of a global approach that integrates the structural biology of mutant proteins, the evaluation of their functional properties, the distribution of mutations in human cancers, and the correlation between mutations and the clinical and pathological parameters of cancer. The objective of this workshop is to review and discuss the state of the art and the experimental methods and models available for such global approaches. The workshop will cover topics ranging from the causes of mutations to the evaluation of their functional and clinical impacts in human cancers.

As for the 2nd workshop, the annual meetings of two research consortiums working on p53 (Mutp53 and Active p53) and funded by the European Community (FP6) will be held in conjunction with this international workshop.

This year the workshop will include a symposium on **Li-Fraumeni syndrome (LFS)**. LFS is a rare autosomal disorder characterized by a familial clustering of early-onset tumors that is caused by *TP53* germline mutations. The objectives of this symposium are to (1) revisit this syndrome in light of recent accumulated knowledge on the biological impacts of *TP53* mutations, (2) stimulate the creation of an international registry of families with *TP53* germline mutations, (3) set-up a framework for supporting genetic counseling and *TP53* genetic testing for Li-Fraumeni and Li-Fraumeni like families in low resource countries.

The workshop will include 34 lectures, 8 short presentations selected from submitted abstracts, a poster session including 42 posters, and a round-table discussion on key issues related to management of patients affected by Li-Fraumeni syndrome.

HOUSEKEEPING DETAILS

Conference rooms

All meetings will take place in the Auditorium, on the ground floor, except for the Active p53 consortium meeting that will take place in Sasakawa A Memorial room.

Poster room

Posters will be in Princess Takamatsu Hall, on the ground floor, from Tuesday afternoon to Thursday afternoon. The poster session is on Wednesday afternoon.

Coffee & tea breaks

Morning coffee and afternoon tea will be served in the main hall on the ground floor.

Lunch

Lunches may be taken at the IARC cafeteria on the 12th floor (90 seats, around 10 euros). However, because of the large number of participants, we have made an arrangement with the restaurant "Sherrington", close to IARC that will serve a menu for meeting participants (30 seats, between 9 and 12 euros). There are also bakeries close to IARC that sell sandwiches and pizzas. See attached map to locate the restaurant and bakeries.

Information desk and message board

An information desk is available on the ground floor for any questions you may have on transportation, hotels, restaurants, maps, telephone... A message board is located near the information desk.

Computer room and internet access

On the ground floor, room R08, behind the information desk, is equipped with computers with free internet connection. WIFI is also available in meeting rooms with the network identifier "princess" and the password "10mono2007".

Cocktail

A cocktail will be served in the main hall on Tuesday at the end of the meeting sessions.

Dinner

All meeting participants who have registered at the workshop are cordially invited to a dinner party at the Château de St Priest on Wednesday night starting at 8 pm. Coaches will leave IARC at 7 PM to go to the Chateau de St Priest. Coaches will leave the Chateau at 0.15 AM and will make stops at IARC and Bellecour in the city center.

Cash machines and banks

Several cash machines and banks are located close to IARC. See enclosed map.

Safety policy

Name tags must be worn to all meeting sessions and events and within IARC facilities.

Smoking is prohibited in any indoor and outdoor IARC facilities.

You are responsible for your belongings. Do not leave them unattended even for a brief period.
